**Healthy Hearing** provides free hearing screenings and other medical services, including ear wax removal, swim molds, hearing aid maintenance and minor repairs for people with intellectual disabilities.

**Health Promotion** focuses on healthy living, healthy lifestyle choices, and nation-specific health issues. In addition to health education activities, health Promotion offers screenings for bone density, blood pressure, and body mass index (BMI). Its goals include encouraging and enhancing healthy behaviors and improving self-efficacy and self-advocacy.
