

# Special Olympics **Fit Feet**

## Volunteer Opportunity!

**Where:** Bellingham Park Bowl  
4175 Meridian St, Bellingham, WA  
98226

**When:** Sunday, November 2nd  
9:00am-1:30pm

**Fit Feet** helps Special Olympics athletes step lively on the playing field and in everyday life. Fit Feet offers podiatric screenings to evaluate ankles, feet, lower extremity biomechanics, and proper shoe and sock gear to participating athletes.

**Clinical Volunteers** such as **Podiatrists, clinical foot care specialists, and podiatry students** will evaluate athletes' ankles, feet, lower extremity biomechanics, and proper shoe and sock gear.

**Footwear Specialists** and **General Volunteers** will assist with athlete screenings by measuring the athlete's shoe size, evaluating the fit and condition of the athlete's shoes and socks, and determining the appropriateness of the athlete's footwear for a given sport. Volunteers with experience in shoe sizing are preferred.
