	/ /	A or P								
<b>TOTAL TEAM SCORE:</b>										

*\*Total Team Scores are determined by taking the team average. Add up all of the individual players score, and divide by the number of players on your roster.  
 Example: 31+30+29+30+31+32+35+34+30+29=311/10=31.1 (Rounded down would be 31). Team total (311) divided by total # players equals average.  
 311/10=31.1 Round up/down to nearest whole number.*
