In competitions other than Special Olympics World Games, in the event of injury or illness during a match whereby a team has been reduced to five (5) players, a team may continue tournament competition. A team will forfeit their match if they are reduced to fewer than five (5) players.

At the beginning of the first set of the competition, the team must indicate that they are missing a 6<sup>th</sup> player on their line-up sheet with an X. During the competition, when the team then rotates and the X player is then up to serve, the team forfeits the ball and a point to the opposing team.
- 2) The winner of the coin toss may choose to serve, receive, or select a specific side of the court. If a deciding third or fifth set is necessary, a coin toss shall again be conducted with the same options.
- 3) A match is won by the team that wins the best of three (3) sets.
  - a) A set is won by the team that scores twenty-five (25) points with a two-point advantage. The third (3<sup>rd</sup>) set (if necessary) will be played to fifteen (15) points.
  - b) Each team will get two (2) timeouts per set of 30 seconds in length.
  - c) The first server of each set is the right back player. Thereafter, the front right player rotates to the right back position. The team receiving the first service shall rotate upon the first side out.
- 4) Scoring:
  - a) All matches will utilize Rally Scoring. You do not need to be serving to score a point.
  - b) A match is won by the team that wins the best of two (2) of three (3) sets.
  - c) Teams change sides when one team has scored eight points if playing to fifteen (15). Switch at thirteen (13) if playing to twenty-five (25).
  - d) When the serving team wins a rally, it scores a point and continues to serve. If the receiving team wins the rally, it scores a point and gains the right to serve.
